## The Safest Investments

Are there that do not foctuate diring dis-turbed conditions of the money or steak markets. First deed of trust notes (first merchages), well secured on real estate in the District of Columbia, constitute "gill-eign" investments, and do not depend upon the flustical responsibility of individuals or corporations for their stability. We can supply such investments in amounts from 300 upward, Send for booklet, "Concerning Loans and Livestments."

Arrangements now are being made to have a large electric sign erected in the downtown section of the city for the displaying of each day's total. Merchants also will be requested to display the daily total. totals in their windows.

### COTTON MARKETS.

COTTON MARKETS.

New York, May 10.—Renewed talk of peace and strength in securities brought about a stronger tone in the cotton market today. There was a good general demand, although at one time the list sagged because of some pressure. The opening was 7 to 25 points higher. The opening was 7 to 25 points higher. Buying, attributed to Japanese interests, attracted attention on the early advance. There were reports from New Orleans that there had been similar buying there on the decline resterday and it was estimated around the ring that between 25,000 and 59,000 baies had been bought in the local market for Japanese account during the last week. Notwithstanding the sharpness of the advance, however, sontiment seemed to be of a bearish average and after the more urgent early demand had been supplied, prices turned easier under a removal of local pressure. July sold off from 19.54 to 19.45 and October from 18.73 to 18.50 with later fluctuations comparatively nervous and irregular. Prices fluctuated within a range of half a dozen points on a small and mostly local business in the afternoon. Above 19.46 for July and 18.50 for October offerings increased, whereas on declines from these figures, a demand appeared from speculative shorts and spot firms. Crop news continued conflicting but with a general mention of cool weather. Covering by local traders became more active in the last hour and this demand, coupled with New Orleans buying, prompted a steadier tone. The close was steady at a net advance of 15 to 25 points.

Ports receipts for the day were 19.535 bales, con-

#### CHICAGO GRAIN MARKET.

Chicago, May 10.—Breaks and bulges in the wheat market followed each other in rapid succession today. It appeared early in the day that there was a possibility of the bears gaining possession of the market, but when the declines were established the wheat was quickly absorbed. To cover their outstanding contracts, shorts were obliged to 18d for the wheat. There was a quick raily late in the day. This upturn was the result of a report of arrangements being made to ship 100,000,000 bushels of wheat from the United States and Canada by July 1.

A little new export business was reported yesterdag at extremely high premiums, with sales of No.
2 hard winter at Omaha at 5.2. The gains at Chicago were 4 cents for May and Max cents for the
deferred months.

British reports received on the Board of Trade
today said crop conditions are improving. This was
the case especially in sections of Kansas. The
weather is favorable throughout the Southwest, as
well as the Northwest. The receipts at the Northwest continue to exceed those of a year ago. The
Kansas weekly weather reports refers to a general
improvement over the State and particularly in
castern and southern central portions.

The trade in both corn and oats was quiet today,
but prices advanced all sround, with the exception
of May corn. Corn was up MaNe cents and oats
were MaNe cent higher, in sympathy with the
advance in hogs at the yards.
